Jewish Rites Observed Dec. 15

The local observance of the Chanukah Menorah will be held Sunday, Dec. 15 at Temple Beth Shalom, according to Robert Golden.

The eight-branched Chanukah Menorah is an indirect but symbolic reminder of the seven-branched menorah which was used in the Tabernacle in the desert and Holy Temple in Jerusalem. The Temple Menorah was made of solid gold, brewed out of one piece, with many difficult and intricate designs on its branches and main stem.

The chief of the workmen who made the first Menorah, Bezalel ben Uri, had to be "filled with the spirit of God in wisdom and understanding and in knowledge and in all manner of workmanship."

Parents of the young choir, Messrs. who had to describe the Menorah to Bezalel, had to be shown a Menorah before he could understand the work he was to do.

It was truly a miraculous Menorah, the flames of six branches were all inclined toward the seventh, central flame. While the same amount of pure olive oil was poured into each of the cups each evening, six of them burned only until morning—while the seventh burned until the next evening, when it was time to light the Menorah again. This seventh flame was the "Tomeh (Eternal Light)"—a reminder of which is to be found in the synagogues to this very day.

Then came the miracle of Chanukah, the oil that was enough for only one day burned—while the seventh burned until the next evening, when it was time to light the Menorah again. This seventh flame was the "Tomeh (Eternal Light)"—a reminder of which is to be found in the synagogues to this very day.

lights or candles.

It is in commemoration of this celebration that the eight-branched Chanukah Menorah came about.

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Read Acts 2:26-35. "You search the scriptures... it is they that bear witness to me." (John 5:39, RSV.)

I was leading the worship service on a too-fall program. The speaker for the occasion was a surgeon. I sat beside him. I asked him if there would be time to read the Bible. He looked at his paper. "Take time," he replied with emphasis.

The reply of this man of science raised a searching question. In the rush of this day has the reading of the Bible been crowded out? If ever there was a time when the Bible is needed, it is the right now. Life is expanding fast. The very depth of the need is being explored. We need something that goes down deep, far below the latest soundings. We need something vast enough to build upon. We need something strong enough to hold at all times and in all emergencies.

How desperately we need the faith and the courage manifested in the Bible. Life cannot reach its best in an atmosphere of uncertainty and fear. It is required of us that we "take time" to read the Bible and feel its eternal reach.

PRAYER

We thank Thee, Father, that Thou art speaking to us in Thy Word. We pray that Thou wilt help us to hear Thee speaking to us through it. Help us to trust in Thee and to walk in Thy statutes as obedient children. In the Savior's name. Amen.

THOUGHT FOR THE DAY

I will take time to read the Bible.

"Credit for the change should go to the Traffic Subcommittee of the Fruit Growers Express. This subcommittee was appointed by the railroads to study ways and means to return fruit and vegetable traffic to the railroads. Joint meetings were held with industry groups, including a conference with a Florida Fruit and Vegetable Association delegation at West Palm Beach, Florida, August 15, 1957."

Throughout the negotiations, the traffic subcommittee stressed the fact that the ownership lines are quite concerned about and thereby, avoid a lot of

trouble and waiting in line. Often, the mailer can save minutes and perhaps up to a half hour or an hour by avoiding the crowded hours at the parcel post windows during the Christmas season and taking advantage of the late morning hours and those in mid-afternoon, when windows are ordinarily less crowded, the postmaster emphasized.

Also, he reiterated his request to residents of Belle Glade to make their Christmas mailings at the earliest possible moment.

Members of the subcommittee included representatives of the Pennsylvania Railroad, Baltimore & Ohio Railroad Company, Atlantic Coast Line Railroad, Seaboard Air Line Railroad, Florida East Coast Railway and Southern Railway.

Rice Referendum Set For Dec. 10th.

Palm Beach County rice growers will vote Dec. 10 along with other growers in rice-producing counties and states to decide whether rice marketing quotas will be in effect for the 1958 crop, states County Agricultural Agent M. U. Mounts this week.

Notices have been sent to all rice producers of the state indicating polling places and hours when the polls will be open. Polls for Palm Beach County will be at the Mounts Building, Military Trail, West Palm Beach and the Sanders Building, Belle Glade.

Mounts emphasized that the vote is on the marketing quota part of the program; acreage allotments will be in effect regardless of the outcome of the referendum.

If quotas are approved by at least two-thirds of the growers voting, growers who exceed their allotments will be subject to a penalty of 50 per cent of parity on their excess marketings, and none of their rice crop will be eligible for price support.

Those who stay within their allotments, Mounts went on, will not be subject to marketing penalties and may purchase rice under Commodity Credit Corporation loan of purchase agreement, which assures them of a minimum national average of \$4.33 per hundredweight. This represents 75 per cent of the November 15, 1957 parity price.

If less than two-thirds of those voting approve, the quota program will not be in effect and price support will drop to 50 per cent of parity to those who stay within their allotments.

All those who, as landlord, tenants, or sharecroppers, were engaged in the production of rice in 1957 are eligible to vote in the referendum.

Your Library

New books available at Belle Glade Public Library are Street of Riches by Gabrielle Roy, author of the Tin Flute and the cashier winner of the Duvernay prize for 1956.

The Caribbean Cavalier by Davenport Steward covering a period of five years 1739-1744 is a vividly projected story of the struggle between England and Spain and is brimful of action filled with suspense and romance, the work of a skilled writer.

The Bixby Girls by Rosamond Marshall is a novel of two ladies of unequal virtue. As Bixley never forgave his father for swapping away a fortune in a quick Texas land for the old Kittridge Feed Store. This unrelenting hate spilled over and poisoned the lives of his children. The cross-hatched lives of the Bixbys and the Kittridges bargained with a drama sweeps the characters and reader along between backstreet Texas, gaudy New Orleans and New York City's night world.

Eliminate Trouble When Doing Xmas Mailing. Good way to eliminate trouble in making your Christmas mailings this year, postmaster George P. Farnall said, is to send your Christmas parcels will arrive at the post office at the rush hours in the early morning, around lunch time, and near the closing hours in the late afternoon.

Often these are people, such as housewives, who could very easily come to the parcel post windows at any hour of the day lines are quite concerned about and thereby, avoid a lot of

... and relieve pre-menstrual tension

This medical discovery treats the cause, not just the symptoms of menstruation. It may leave you extra sensitive, overreact, more subject to pain at the time of your period.  flected in only one supermarket at Belle Glade this week. Supermarket chains in several other Florida counties also cut prices as low as 16 cents per quart. A local of local merchants revealed that wholesale milk prices had not changed and no indication was found that these prices would change.

Milk tumbled from 28 cents per homogenized quart to as low as 23 cents here; however, most grocery spokesmen felt that the lower prices would not prevail for any appreciable time.

Prices other dairy products were not changed in the one store here which sold cheaper milk. No increase was noted in the volume of milk sold at lower prices here.

Soil Reserve Plan Begun By Ag Group

"County ASC committees have begun taking 1958 conservation reserve contracts," states County Agricultural Agent M. U. Mounts. "Major changes have been made in the program to encourage farmers to place whole farm units under contract and emphasize forestry and wildlife practices," he said. He went on to point out that the conservation reserve is the longtime phase of the Soil Bank's two programs.

In announcing the 1958 program, Assistant Secretary of Agriculture Marvin L. McLean said, "The changes that have been made in the 1958 conservation reserve should result in an increasing diversion of currently used cropland to conservation uses. Among the additional incentives being offered farmers to divert more land to conservation uses, is an authorization under the 1958 program for County Agricultural Stabilization and Conservation committees to increase annual payment rates, where such increases can be justified, for land to be planted to forest

and for whole farms retired from production." As in last year's conservation reserve, types of payment remain the same. First there is a cost-sharing payment (up to 80 percent) made the year the farmer applies the conservation measure; the second type is an annual per-acre rental payment each year the land is under contract. More information about the 1958 conservation reserve program can be secured at the office of the Palm Beach County committee located in the Mounts Building, Military Trail, West Palm Beach.

Girl Scout News

Meeting at the home of Mrs. R. J. Allen, Jr., Tuesday night the Belle Glade Girl Scout Neighborhood Assn. held its regular meeting for December. A training course of two hours session given by Mrs. Mina Holden, district Director of the Palm Beach Girl Scout Council, was held, preceding the meeting at the home of the neighborhood troop consultant, Mrs. Fred White, Mrs. V. G. Hobson, troop organizer and Mrs. Allen.

Mrs. Holden was present at the neighborhood meeting also. Mr. Robert Allen, first vice president of the council, in addition to other scout leaders.

The group voted to have the Intermediate Girl Scouts participate in the Fiesa Parade. They will carry in addition to their troop flag and the American flag, their Council flag. Plans were discussed for participation in the January PTA meeting and it was agreed to limit this to the Intermediate as the hour is late for Broward. Mrs. Fred White was asked to invest the new second grade Brownie troops and their leaders on Dec. 18.

Mrs. Holden reported on her recent training in Philadelphia and said of the 11 states represented at the training for directors, the plan of work for 1958 of the local council was selected for study in an example of the best. This plan of work will be studied and will be considered in relation to the local neighborhood.

She also reported briefly on the National Convention, and quoted from national standards about the proper use and wearing of the Girl Scout uniform on which there was considerable discussion. Announcement was made of the next meeting which will be held on Tuesday, January 7 at 7:30 p. m. at the home of Mrs. White with Mrs. Hobson as co-hostess. Mrs. Holden will be present and in the afternoon will meet with members of Troop 133 and their mothers for discussion on badge requirements. In the morning from 8:30 to noon she will be at the Girl Scout hut for a workshop in troop committee jobs and sponsorship agreements and from 1 p. m. to 3:30 p. m. will be available at the scout hut for conferences with individual leaders and troop committees. Appointments for these conferences should be made with Mrs. Allen.

Following the meeting Mrs. Emil Wolf served refreshments.

Construction valuation took a sharp increase in November helped principally by the \$344,000 water treatment plant permit, states Belle Glade Building Inspector W. L. Cunningham in his monthly report.

New home construction valuation stood at \$32,500 for November while business valuation amounted to \$5,200. The total of ten permits made a total of \$381,800 with \$113.50 in fees. October valuation was \$33,650.

PAHOKEE WINS 5-0

(Continued from Page One) With a defense led by Jack Hamilton the Rams let the Devils see the Rams 30 yard line only twice in the game. Hamilton's jarring tackles caused the Devils to fumble at least twice.

The Blue Devils came up with great defensive action and stopped the Rams from scoring when they'd penetrated to the three. The Rams' only other serious threat was a drive to the Pahokee 21.

With less than a minute to go in the first half, Richard Shackford's passing accuracy to Alvey Early got hot. Three plays moved the ball from the mid-field stripe to the Ram 10, but the clock ran out.

Each team seemed to fumble in critical situations throughout the second half. Pahokee's scoring plays resulted late in the game when, after Belle Glade kicked to the Pahokee 44, drives by Robbie Walker, Richard Weeks, Shackford and Early carried the ball to the end zone. A jump pass for the extra point missed the intended receiver.

Pahokee takes the lead in the Bill Young Memorial trophy derby with seven wins and six losses. There have been two ties. As the season closed for both teams, Pahokee looked back on a 5-3 season and Belle Glade viewed only one win in ten starts.

At the game's conclusion R. E. (Trouble) Hotard presented the Bill Young Memorial Trophy to Pahokee Lions Club President James H. Wilkinson, Jr. who will in turn present the trophy to Pahokee High School.

Jack Hamilton was captain for the Rams with Billy Abel and Phil Crant as alternate captains. Sponsors for BGHS were Jeanette Buss, Cline Raulk and Naomi Ford.

Pahokee's captains were Dale Stacey and Richard Weeks with Faith Sasser and Virginia Culbertson as sponsors.

Two Inducted Into Armed Forces Tuesday

Burford Justice and Nathaniel Pierce left Belle Glade for Miami Dec. 3, where they will be inducted into the armed forces according to Mrs. F. O. Quinn, clerk of local Board 148.

Spray DuPont Manzate

maneb fungicide

Year after year, Du Pont "Manzate" helps more Florida growers produce healthy, better quality tomatoes. That's because no other fungicide yet tested has done so well as "Manzate" in the control of early blight, late blight, grey leaf spot. With "Manzate" there's no need to switch

from one material to another... a simple, one chemical program covers the entire season. "Manzate" is mild on plants... permits maximum growth of healthy, vigorous vines and fruit. For the very best protection, spray Du Pont "Manzate"... the most widely used tomato fungicide in Florida.

"Manzate" is available in three convenient sizes. The 4 1/2 pound bag is just the right amount for 300-gallon sprayers. For 100-gallon sprayers, use the 3 pound bag size. Combine the two for 500-gallon tanks. Du Pont "Manzate" is also available in 50-pound drums.

On all chemicals, follow label instructions and warnings carefully.

Problems Face East Lake School

Overcrowded conditions now present, and a record year of enrollment are two problems facing East Lake School at Pahokee, however, instructional processes continue satisfactorily, states S. M. Murrell, principal. Enrollment now 615, highest on record for this early in the year, is expected to peak over 700 pupils before the end of the year, as predicted by Murrell.

Of that number, 184 are registered in the Junior High Department, grades 718; and 173 are transported pupils served by three county school buses. The first, fifth, sixth, and ninth grade levels are overcrowded, but a new teaching unit under the supervision of Mrs. Ruby L. Phillips has been added to take care of the fifth and sixth grades.

Greatest concern, Murrell said, is for the first grade where

95 children are taught in two sections; another section is urgently needed. Another problem is where to house such a section if it is provided.

Four new classrooms, including a science lecture-demonstration lab, are now being built but will not be ready before the fall term next year. "It is my sincere belief," states Murrell, "that our teachers are doing an outstanding job due to their genuine interest in the welfare of our pupils." The school is open to all parents, friends and patrons for visits at any time, he said.

Bryant School PTA Holds Regular Meeting Dec. 10

Nineteen members were present at the recent meeting of the Bryant Elementary School PTA where R. D. Jackson, chairman of the program committee, made his report.

A hayride was planned for the people of the community to obtain funds for a Christmas party for the student body. Jackson told those present that the faculty and student body would present Thanksgiving baskets to the oldest parents in the community.

The next monthly meeting will be held at the school Dec. 10, according to Mrs. E. M. Banks, president.

Edward Walsh Is Killed In Auto Crash

Guy W. Bender, Chief of the Everglades Fire Control, returned last week from Atlantic City, N. J., where he attended the funeral of his son-in-law, Edward Walsh, 51, who was killed instantly in an automobile crash on Nov. 4. Mr. Bender reported his daughter, Mrs. Devota Walsh, is improving in the hospital in Atlantic City after suffering a fractured wrist and head injuries.

Mr. and Mrs. Bender flew to Atlantic City on receiving the news of the accident to be with their daughter. Mrs. Bender remained there and will return here with her daughter when she is recovered sufficiently to make the trip.

The Walsh family are well known in Belle Glade having spent summer vacations here. The head-on collision was due to the fact that the driver of the other car, who had just left a taproom, pulled out to pass either one or two buses and hit the Walsh car.

Mr. Walsh had been associated with the Crillon Hotel in Atlantic City for 25 years and was manager about 15 years. Originally from Philadelphia, he came to the resort in 1927. He was a past president of Chapter 43, Hotel Greeters of America, belonged to Knights of Columbus, the New Jersey Hotel Association, the American Hotel Assn., and the Chamber of Commerce.

In addition to his wife he is survived by a son, Donald, 23 of San Diego, Calif., and a daughter, Patricia Mary, 16 at home.

Hurricane Program Set To Continue

Congressman Paul Rogers announced today that the hurricane research project in West Palm Beach would definitely be continued through October 1958.

The Congressman was advised by the Department of the Air Force, by telephone this week that a decision had been reached where the necessary funds would be made available for the continuing of the planes in cooperation with the Weather Bureau for the carrying out of this research project.

When the announcement was first made that this project would be discontinued at the end of the current season Congressman Rogers immediately contacted the Secretary of the Air Force, the Secretary of Commerce, Sinclair Weeks, Director of the Budget, Percival Brundage, and some thirty Congressmen along the eastern seaboard and Gulf states urging that the program be continued.

Since 50% to 70% of the research has been completed, the Congressman stated that to stop the project now would be a waste of money already expended.

Representative Rogers expressed his pleasure over the continuation of the project and the cooperation of the Budget Director and the Departments of Defense and Commerce.

The Air Force stated, "the hurricane research project has been thoroughly reviewed by the Department of Defense. Due to the importance of hurricane research to the nation, the Air Force will continue to provide flight service for an additional year, that is, through October 1958."

The Department of Defense will finance out-of-pocket costs for this flight service. If additional hurricane flight exploration is required after that date, other funding arrangements will be necessary."
